The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

Hoofland's Column.

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR
FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for
Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its-life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD

FROM HON. JAMES TAOMPSON

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

THE TWO NEIGHBORS.

There were two men who were neighbors, and each of them had a wife and several little children who depended upon them for support.

Now, one of these men was greatly troubled, saying, "If I die, or even if I fall sick, what will become of my wife and children."

The same thought came also to the other father, but he left it go again, whispering to himself, "God, who knows all his creautures, and who watches over them, will watch over me, also, and over my wife and children." And this man lived in peace, while the other knew neither rest nor joy.

One day, when the latter, sad and cast down by reason of this fear, was working in the fields, he saw some birds fly into the bush, come out, and then return thither. He approached it and saw two nests, side by side, and in each were several little birds, newly hatched and still featherless. When he had returned to his work, he raised his eyes from time to time and looked at the old birds going backward and forward and carrying food to their young ones. Presently, just as one of the mother birds was returning with something in her beak, a hawk seized and carried her away, in spite of her struggles and piteous cries. At this sight the man felt more troubled than before, for he thought, "The death of the mother is the death of the little ones. Mine have only me; what will become of them if I fail them?" And all the day he was very sad, and when night came it brought him no relief.

The next day, on returning to the field, he said, "I will see how these poor little birds are; doubtless several of them have already perished." So he went towards the bush and looked into the nest; there he saw the birds, and not one of them seemed to have suffered from the loss of its mother. He was exceedingly astonished, and hid himself to see what would happen.

After a little while he heard a faint cry, and he perceived the bird of the other nest bringing with haste the food she had found, and this she divided between her own and the motherless little ones. There was enough for all.

The man who had mistrusted God, told to his neighbor what he had seen, and the latter answered him, "Why art thou troubled? God never forsakes his children. His love has secrets that we know not of. Let us believe, hope, and love, then we may go on our journey in peace. If I die before you, you will be a father to my children; if you die before me, I will be a father to yours. Or, if we both die while they are of tender age, their father will be our Father who is in heaven."

THE FRIGHTFUL PUNISHMENT OF SILENCE.—Mr. James Greenwood has published in London a frightful account of the silence system, which is in operation at the Halloway Model Prison in London:

It is an offense for a prisoner to speak one word, and he is never addressed except in whispers, so that he may be in the prison for two years without hearing the natural sound of a human voice. The effect of this is so terrible on the mind that prisoners will speak out in desperation, at the risk of any punishment, rather than endure the horrible silence.

The prisoners never see one another, but remain in perpetual solitude. One poor wretch, driven to desperation by nine month's solitude and silence, recklessly broke out in Mr. Greenwood's presence, in these words: "For God's sake, Governor, put me in another cell! Put me somewhere else! I have counted the bricks in the cell I am in, till my eyes ache!"

The request of the tortured wretch was refused.

There is a fine hole in each cell, and as the warders wear shoes of Indian rubber soles, the prisoners can never be sure he is alone.

Those condemned to the treadmill have to ascend twelve hundred steps every alternate twenty minutes for six hours. And this in a place so hot and close that prisoners often lose in perspiration three stones in as many months. Every day the prisoners are taken to a chapel so arranged that they can see no one save the chaplain, and him only through an iron grating, and this is the order of devotion observed: "Warders are constantly on the watch, lest for a single instant they, through the whole of the service, depart from the rigid rule of 'eye right.' They must look steadfastly at the preacher, must raise and lower their prayer-book with the elbows squared, and all at once, like soldiers.—They may not scrape their feet without having afterward to explain the movement. They may scarcely wink an eye, or sigh, without danger of rebuke or punishment." God help them, poor wretches!

THE last Congress passed an act incorporating a National Insurance Company. This was a wise proceeding. Most of our Life Insurance Companies have been State organizations, and although nearly all of them are good and worthy of patronage, there has been something wanting in the fact that they were not national. A Company that isues policies all over the country and invests its premiums in legal securities, becomes as much a national institution as the sub-Treaury, especially when it is under the management of men like Mr. Jay Cooke, who have a world-wide reputation for business enterprise, honor and sagacity. The National Life Insurance Company adopted new features which make it the most attractive as well as safest in the United States. An advertisement is published in another column, and our readers cannot do better than to study this scheme carefully, and in the interest of prudence put a policy upon their lives.

A VERIFIED PROPHECY—PREDICTION OF CALHOUN.

In 1837, John C. Calhoun, whose perspicuity was so wonderful that his prophecies have become history, thus addressed the Senate of the United States:

"Be assured that emancipation itself would not satisfy these fanatics; that gained, the next step would be to raise the negroes to a social and political equality with the whites; and that being effected, we would soon find the present condition of the two races reversed. I speak with full knowledge and a thorough examination of the subject, and for once see my way clearly. One thing alarms me—the eager pursuit of gain which overspreads the land, and which absorbs every faculty of the mind and every feeling of the heart. Of all passions, avarice is the most blind and compromising—the last to see, and the first to yield to pander. I dare not hope that anything I can say will arouse the South to a due sense of danger, I fear it is beyond the power of mortal voice to awake it in time from the fatal security into which it has fallen."

But that fiat of fate, steeped in the blood of thousands, has come upon us with a curse more dreadful than the locusts and frogs of Egypt. So much of the prophecy, then, has been fulfilled. The social and political equality of whites and blacks stares us in the face. It may be forced upon us; but has avarice so absorbed "every faculty of the mind and every feeling of the heart," that Virginians, for paltry pelf, should don their own robes of disgrace, that they should help reverse the proud motto of the glorious Old Dominion, and lick the tyrant's foot which oppresses her fair neck? Can her sons have so degenerated as, with voluntary hand, to place this stigma upon her fair old name? If our conquerors have the power to force a "republican constitution" upon us, with its damning principle of social and political equality, they have neither the power nor the right to compel us to degrade ourselves by voting for it.—*Richmond Enquirer.*

LOVE AT SIGHT.—On Monday of last week a young Californian, about twenty-five years of age, happening east on business, visited Lowell for the purpose of sight-seeing, stopping at the American House. He seemed a young man of property, wore diamond rings and other costly jewelry, representing himself as the owner of a large stock farm and other property at San Jose, California and gave his name as James Welch. He stated that his partner in business was about returning from the east with a newly wedded wife and intimated that but for some disappointment he might have done the same. His story coming to the ears of a young lady of twenty years employed as a seamstress at the American House, jocosely remarked, inasmuch as she had been disappointed in a similar manner, the relatives of one whom she had pligted her faith preventing the marriage, her heart beat in sympathy with that of the Californian, and the sorrow of both might be assured in matrimony. Her friends, thinking it all a joke, which they would carry further, arranged an introduction between the two, which took place at the American House last Wednesday morning, they never having spoken to each other before. On the day following (Thursday) they were married at four o'clock in the afternoon, by the Rev. Dr. Edson, and three quarters of an hour later were on the way to New York. On Saturday last they took the steamer for San Francisco. The bride wrote to her friends when at New York that she was well pleased with her choice, and that her husband and herself had arranged a visit East next year.—*Lowell Courier.*

NOT NECESSARY.—A good anecdote is told of a lady residing in Lancaster, Ohio, which will do to repeat. The lady delighted in the healthful and exhilerating exercise of horseback riding, and on one occasion her husband purchased and presented her a magnificent riding horse, just such a steed as suited the lady's fancy to a T. A saddle was of course next demanded, and in a day or two the lady called at a saddler's shop for the purchase of the article. After looking at the different styles, and inquiring the various prices, she at length gave an order to the gentlemanly proprietor for a large saddle, which was to be ready on a certain day. After giving the order the lady remained in the shop a few minutes, in a kind of undecided state of mind, as if there was something else she wished and had forgotten. The proprietor at length inquired if there was anything else she wanted. "Oh, no," said the lady, "there's nothing else I want, but ain't you going to measure me?" The proprietor, with a broad grin, informed her that no measure was necessary in the case, and the lady departed.

ANNEXATION TO HAYTI AND SAN DOMINGO.—Butler, Banks, and other benighted and besotted lunatics in Washington, are proposing to annex the niggers of Hayti and the Mongrels of San Domingo, and profess to regard such annexation as "manifest destiny," and merely a matter of time. But, like all their "statesmanship" for the last eight years, they put the cart before the horse, and lie to the people. Instead of annexing Hayti and San Domingo to the United States, they should say they desire to annex the United States to Hayti and San Domingo, for that is exactly the thing they have all been at work at since Lincoln's election in 1860. The United States were composed of white people, but Abe Lincoln & Co., have sacrificed a million of lives to "reform" this, and adopt the Mongrelism of San Domingo, and therefore, we repeat, they lie to the country when they talk of annexing Hayti, &c., to the United States, as they in fact, are annexing us to Hayti.

DOESTICK'S ON THE GRECIAN BEND.

I now behold the fair daughters of my country deliberately striving by night and by day to deform and distort their lithe and graceful figers, and convert themselves into a sort of human camel, or rather, into an Australian kangaroo.

The other day Mary Magee my country cousin came to visit us. When I came home, at evening, I was glad to see Mary, but I observed something queer about her. She walked with a crook in her back, and I thought the poor girl had been washing perhaps the day before, and she had got a lame back. I felt sorry for her, and so went out and bought one of Sticktight's Poor man's Plasters. When I got home, I called her to one side and said, Mary if you'll get Maria Lemantha (my country cousin) to put that on your back to night when you go to bed, it will take the soreness out of your bones before morning. It will draw pretty hard and smartsome, but I guess you can stand it for the night, and you'd better stand almost anything rather than have that back crooked.—I am truly sorry to see you afflicted so but this plaster will be certain to cure you. It's called Poor MAN'S plaster, but I'm positive it will do for a poor GIRL, just as well.

Who would believe the ungrateful return for my trouble? Mary threw the plaster in my face, (where it stuck so fast that it pulled out one whisker by the roots) burst into tears and ran up stairs sobbing out that she was never so insulted in her life. Pretty Mary Lemantha came down stairs and began to give me Hail Columbia in the scolding way; and I'll tell you when that girl goes in for a good square jaw she can't be beat by anything that wears black hair.

She told me that I had insulted her friend and abused her, and she was going to leave and go right home. I tried to find out what all the row was about, and explained to Miss Lemantha I wanted to do Mary Magee a kindness, and had offered her the plaster to take the 'crick' out of her back.

"Crick! said Lemantha, in her most vicious and spiteful way, "CRICK!" You must be a fool, that's no crick—that's the Grecian Bend.

"Well," said I, "whatever you may call it, Mary Magee has got it bad; but I'm sure that plaster would cure it before to-morrow morning."

At last, after a long series of scolding on Lemantha's part the whole thing came out. The Grecian Bend is not a deformity to be pitied, it is a fashion to be followed.

Can anything be imagined more hideous? Just think of graceful well made woman making a Grecian Bender of herself, by crooking her spine, humping her shoulders, and strapping herself into the shape of a dromedary as near as she can!

WEDDED BLISS.—
God bless our wives;
They fill our hives
With little bees and honey!
They ease life's shocks,
And mend our socks,
But—don't they spend the money?

When we are sick
They heal us quick—
That is, if they love us;
If not, we die,
And yet they cry,
With just one eye,
And wink the other on the sly,
At some young man above us.

The fame of the celebrated Plantation Bitters has no parallel in the history of Medicine. The thousands upon thousands of bottles that are made and sold daily is but proof positive of their wonderful virtues. Thousands of Certificates can be produced showing the efficacy and certainty of the cures which they effect and the Medical Fraternity, usually so jealous of anything which causes persons to think and doctor for themselves, are compelled to acknowledge their wonderful virtues, and prescribe them under other names. They are sold by all druggists.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

JACOB SCHEETZ—Sir: I was suffering for some time with Dyspepsia, and also weakness and nausea of the stomach, and after trying some of your Bitters it caused me to throw off all the foul matter, and reinvigorated my system. It has effected, I think, a permanent cure.

You are at liberty to use this certificate if you think proper.

ANN HALLMAN, 4550 Main St., Germantown, Pa.

The importation of rags from the Mediterranean, hides from Brazil, and other commodities from the tropics, is known to bring the germs of disease, chiefly fever which are sometimes very afflicting and fatal. Ayer's Ague Cure stimulates the Liver to excrete these germs from the system as effectually as it does the miasmatic poison of our Ague districts. Consequently it affords invaluable protection to stevedores and others whose occupations expose them to these dangerous infections; and we hope to render them a valuable service in giving them this information.—*New York Dispatch.*

A "DISTANT RELATIVE."—"You have lost some of your friends, I see," said a traveler to a negro whom he met on the road.

"Yes, massa."

"Was it a near or distant relative?"

"Well, purty distant—"bout twenty-four mile," was the reply.

It was wittily, but somewhat ungallantly said that a woman is the very reverse of her mirror,—the one reflects without talking, the other talks without reflecting.

HOUSE AND FARM.

Watering Horses.—Horses should never be kept so long without water that they will drink largely when they get it. Give it to them often, and they will never injure themselves with it. Nothing is more common than to hitch a team to the plough, and make them work half a day without a drop. What man would submit to such treatment? If the plough is started at seven in the morning, water should be given again before ten, and again in the afternoon by four o'clock. Even if half an hour is thus consumed, more work will be done in a day. The objection that horses on the road should not be "loaded with water," is not valid. A horse weighing 1,200 pounds will not be much encumbered additionally by twenty pounds of water, while the distension will give him additional strength. Every farmer knows that when he himself undertakes to lift a large log or heavy stone, he can do more by first inflating himself with air, and not unfrequently he loses a button or two from his pantaloons in the operation. Some degree of inflation by water will add to a horse's strength in a similar manner. In driving a horse on the road at a natural gait of nine or ten miles an hour, I have frequently had occasions to observe that he was laboring with perspiration until I left him drink freely, when he ceased to sweat and evidently traveled more freely. Don't be afraid to give your horse water; the danger is in making them abstain too long, in which case care is needed.—*Country Gentleman.*

February Work.—Plenty of money will help a farmer over difficulties that beset poorer men. It not only "makes the mare go," but it makes many other things go, and run right smoothly. Poor men may have just as smart mares, and just as smooth-running wheels as their richer neighbors, with a little more work and with well laid plans for their work. Plans save time, and "time is money." As the spring approaches, our arrangements naturally become more definite, and planning more or less for the autumn or winter ahead, we ought, nevertheless, to begin to think especially about the first work to be done in the spring.

Hog Cholera.—A writer in the *Stock Journal* recommends the following as a preventative of this disease: Flowers of sulphur, six pounds; sulphate of iron, six ounces; cinchora, pulverized, a pound. Mix well together in a large mortar; afterwards give a table-spoonful to each animal mixed with a few potato peelings and cornmeal, three times a day. Continue this for one week, keeping the animal in a clean, warm, dry place, and not allowing too many together.

Cows.—Those whose calves are to be raised, should be dried off fully six weeks before calving; others, especially young cows, ought to be milked close to their time of coming in, and dried clean, if possible, just before the new milk springs; feed well; separate any that show the least sickness, or are off their feed. Card well as often as twice a week, if not daily, and give access to salt.

Manure.—There is an immense saving of labor in hauling out manure in the winter while good sledding lasts, but there is also great waste exposing animal manure not well composted. Haul out composts only. Let no fresh manure lie in heaps about the barn or yard, but work it over and mix it, spreading it out and keeping it from heating. Cut all straw for bedding 10 inches to a foot long.

Working Animals.—Feed well at all events, and bring all working stock to the spring in good condition. Spring-poor cattle are a burning disgrace to any farmer. Use the card and brush freely, and feed a little grain or oil meal. Keep salt always where oxen and other cattle can get it, and see they are regularly watered.

Sheep.—Ewes, near yeaning, should have warm and roomy pens, and both pens and yards dry and well littered; they should also have some spots of dry, hard ground, or boards to lie upon.—Such spots are equally acceptable to fattening sheep. Give food, water and salt regularly.

To Remove Old Putty.—Old putty, it is said, however hard and indurated, may be easily removed by running a red hot iron over it, when it can be cut off with a knife almost as easily as green putty. To those who have plant houses, &c.; and even for the purpose of reglaizing house windows, this will be worth trying.

Seeds.—Look out in advance for the best possible selection of seeds for spring use. Send for catalogues of field and garden seeds from responsible dealers, and by exchange or purchase secure from friends any novelties worth trying.

Buildings.—Make use of warm days to clean and ventilate the cellars of both house and barn, unless the walls are so cold that the warm moist air makes them damper. Painting and repairing may be done in milder weather.

Flax seed occasionally given to horses, or cattle, will make them shed their old hair—and whether old or young soon get sleek and fat. It is the only thing which will fatten old horses.

Sure Cure for Bots in Horses.—Take half a pint each of vinegar, soft-soap, and molasses, shake well together, and pour down the animal's throat while the mixture is foaming.

Implements.—Overhaul all sorts of tools and implements; paint them and make any needed repairs; paint and repair wagons and carts, ready for work.

DEMOCRATIC MEETING.

The Democratic meeting held in the Court House on Monday night last, was the first rally of the party since the November election. The presence at that meeting of the true and tried working men of our democracy, shows that "there is life in the old land yet." The party is about to be thoroughly reorganized for another battle with the enemy of the People. Defeated, *but not conquered*, is the motto of the Democracy, as with renewed energy it girds on its armor for another onset.

The Meeting declared a preference for that well known citizen of Allegheny county, Gen. Geo. W. Cass, as a candidate for Governor, and in so doing, without doubt, reflected the wishes of a majority of the party in this county. Many of our people are personally acquainted with Gen. Cass and admire and esteem him as much as a private citizen as they do as a public man. Should he be nominated, he will receive a most enthusiastic support from the people of Bedford county. But whether nominated, or not, the friends of Gen. Cass in Bedford, will, as they have always done heretofore, give a cordial support to the candidate of the party.

INDEPENDENT LEGISLATION.

The failure of the bill to legislate into office the defeated candidate for Receiver of Taxes in the city of Philadelphia, does not produce the slightest ripple upon the flow of popular opinion. The defeat of that iniquitous measure is so entirely in accord with the popular expectation and desire, that none but those immediately interested in the success of the bill and those legislators who belong to the "ring," have felt the slightest prick of disappointment. The senators who absented themselves from the sassions of the Senate, in order to defeat this bill, are fully sustained by the people. Scarcely a murmur is heard against the course which they pursued. Even radical newspapers of the most mendacious sort are abashed into silence. So much for boldness and independence. We have observed with care the tone of the press of the State, and are forced to the conclusion that this exponent of public opinion, without distinction as to politics, is decidedly averse to the extravagant, high-handed and sweeping measures proposed in the legislature. The newspapers of the State, with the exception of a few servile sheets, have spoken out in manly protest against the pasting and folding swindle, and the Philadelphia journals, radical, democratic and independent, with only two exceptional cases, oppose the various Police Bills under legislative consideration. There is also some nervousness in the radical papers on the subject of the proposed Registry Law. This measure is designed by its authors to hamper the democrats. That it will have this effect, in a few districts, is quite possible. This would be the case in Philadelphia, Luzerne and Schuylkill, which have a heavy naturalized democratic vote. But the reverse would prove true in Pittsburg and Allegheny, which poll a very large naturalized radical vote. In these places the Registry Law would be a hindrance to the radicals. In the rural districts, they would suffer more by a strict registration than the democrats. Bradford, Tioga, Potter, Warren, Erie, Crawford and Lawrence gave, last fall, about 17,000 radical majority. These counties are situated on the borders of New York and Ohio and adjoin radical counties in those States.—With a rigid registration they cannot give over 10,000 radical majority. In all the radical buckwheat counties, of which Somerset, with its 1,400 anti-democratic majority, is an example, the registration law will be hailed with the maledictions of the mountaineers. The foreign-born citizen will, also, regard it as a barrier in his way, and if he has, in the past, voted the radical ticket, will, in the future, cast his ballot for the democracy which strives to shield him from this blow leveled at his rights.

It is apparent, therefore, to many far-sighted radicals, that the millstone which this Registry Law is intended to tie about the neck of the democracy, will inevitably drown and destroy radicalism. Hence the radical politicians of the State are far from being a unit in favor of the adoption of this measure. Independent thinkers among them earnestly hope that the same intrepid courage which saved the State from the disgrace of forcing into office a defeated candidate, will also save the radical party from the necessity of carrying through the coming campaign the burden of the Registration Law. Whether the views of these men will find expression and support among radical members of the legislature, remains to be seen. One thing is certain, *the people* will sustain those who oppose this measure and condemn those who force it upon them. Independence of the caucus commended itself to the popular judgment, in the case of the Peltz bill, and will be the more admired if exercised in regard to the more sweeping and dangerous measures, the Police and Registry Bills.

SLANDER OF THE LIVING AND DEAD.

The Yankee is insolent, vain, hypocritical and mean. He doubts the virtue of all men and women, and has abundant reason to suspect his own. He is never happy except in impudently prying into the business of his neighbor. He makes tariffs to regulate the trade of the people, and he invents sumptuary laws to control their appetites. He is never satisfied until he has looked in every man's pot. A low, lascivious and obscene radical from Maine, named Perham, has reported a bill from the Committee on Pensions which outdoes all that the New England Pharisees have yet attempted in the way of exercising supervision over their fellows. The espionage of a despotism, with its tens of thousands of janisaries and alguazils is pleasant in comparison with the prying meanness of the Aminadab Sleeks who control the radical party in Congress. We approach the subject with unfeigned reluctance. The object of the bill is to withdraw the pension of the government from the widows and children of deceased soldiers, if the widows are under suspicion of having abandoned the path of virtue, or are charged with being involved in any unlawful attachment. They must make a clean bill of moral health before they can approach the treasury for their monthly dole. This is the brief outline of the bill. The accuser and the judge of the widow are not designated. It will not do to accept the calumnies of envious neighbors and scandal-mongers. The government, in order to fully carry out this proposition, will be compelled to keep in pay an army of spies to hold vigilant watch over the widows of our dead heroes. Over every hundred soldiers' widows, the federal government must set a spy. These minions should be castered, like those who zealously guard the harems of the East. Or, a Bureau will have to be formed by a radical Congress to examine into the habits, deportment, manner of life, expenditures, daily walk and conversation of the widows of those who saved the American Union. When the board shall be formed, Ike Kallock, Sereno Howe, John Covode, O. P. Morton and John Cessna should be made members. The President of the Board should be the murderous Massachusetts deacon who is nameless.

This atrocious calumny of the radicals in Congress on deceased Union soldiers in the persons of those they have left behind, should be deeply avenged. The heroes entered the service in the belief that in the event of death, a grateful nation would take care of their wives and little ones. They parted tearfully from their dear ones, and rushed forward to risk life in a noble cause. They rest now beneath the damp sod, thousands of them without a rough inscription to mark the spot of their burial. The radical Committee on Pensions in Congress now propose that they shall be branded with infamy as the spouses of indecent women, unless their widows shall be able to furnish proof of chastity and continence. The Covodes, O'Neils, Logans, Butlers, Chandlers and Mortons except to pass for exemplars of economy by saving a few millions in compelling the widows of soldiers to furnish proof of leading a blameless life, in order that they may draw their pension. Many, many thousands of the widows of our heroes, would shrink in virtuous timidity from the brutal investigation. The squanderers of millions of money on greedy corporations would thus acquire a cheap reputation by saving a few millions a year from the pension list. Of all the disgusting manifestations of radical meanness, this proposition of the Pension Committee in Congress is the worst. For the honor of the country, for the sake of the hallowed memories of the past, let not the fame of our gallant dead be tarnished by this infamous proposition.

THE Somerset *Herald and Whig*, the organ of the Somerset radicals, calls upon its political friends in that county to give particular attention to the election of Assessors and Judges and Inspectors of Election, warning its readers that there will probably be a stringent Registry Law enacted by the present Legislature, under which it will be of great advantage to a political organization to have the control of the Assessors and Election boards. We are obliged to our friend of the *Herald and Whig* for this timely suggestion. Democrats can see what is to come wherever the opposition get the officers named by the *Herald and Whig*. There is generally too much carelessness on the part of our friends in regard to the Spring elections. Many votes are lost in the Fall, because of the remissness which permits radical election officers to be chosen in the Spring, who, upon the most trivial excuse, reject the ballots of Democrats.—Let not this negligence prevail any longer. The election, next October, will be one of great importance. A Governor, Judge of the Supreme Court, State Senator, Representatives in the Legislature, Prothonotary, Sheriff, &c., are to be chosen. The battle will be fiercely contested. The spring election will be a skirmish for the vantage-ground. Let us see to it that we drive in the enemy's pickets, from one end of the line to the other.

DEMOCRATIC MEETING!

Reorganization of the Party!

GETTING READY FOR ANOTHER BATTLE!

Election of Delegate to the State Convention.

Speeches, Resolutions, etc., etc., etc.

Pursuant to previous notice, the Democrats of Bedford county assembled in Mass Meeting, at the Court House, in Bedford, on Monday evening last, 8th inst. The court room was well filled, with an intelligent and attentive audience. On motion of O. E. Shannon, Esq., HON. THOMAS ROSE, of Monroe tp., was called to the chair, with Asa Howsare, Jas. Sill, Wm. W. Lamburn, Jno. B. Fluck, Sam'l Elliott, David Evans, George Roades, Wm. M. Pearson, as Vice Presidents, and Josiah Ritchey, G. G. Burns, A. J. Sansom and Francis Wertz, as Secretaries.

The following were appointed a Committee on Resolutions: A. D. Koontz, Esq., J. T. Gephart, P. G. Morgart, John C. Figard, Jonathan Bowser, A. Zembower, J. B. Fluke, John Zeller, Geo. Roades, Dan'l Evans, Jos. Souser, John Filler, Adam Koons, John Redinger, Samuel Berkheimer, F. D. Beegle, John S. Schell, Moses Crisman, Josiah Ritchey, Geo. S. Potter, Henry Fluke, Daniel W. Amos.

Hon. B. F. Meyers was then called upon to address the meeting. Mr. M. responded in a logical and convincing effort, after which O. E. Shannon, Esq., was called out, who entertained the meeting in an able and amusing speech.

The Committee on Resolutions then reported through their Chairman, A. D. Koontz. Esq., the following, after the unanimous adoption of which the meeting adjourned:

Resolved, That the Democracy of Bedford county reiterate the principles of civil government which have for more than half a century distinguished the party of the people from that of the oligarchy which aims at the centralization of power at the Federal capitol and is constantly encroaching upon the rights and privilcges of the People and the States reserved to them at the formation of the Republic.

Resolved, That the effort now being made by the leaders of the radical oligarchy in Congress, to wrest from the People of the several States, the right to control and regulate the suffrage for themselves, by adopting an amendment to the Constitution, through the agency of legislatures chosen upon issues which ignored the suffrage question, shows distrust of the popular judgment, is an insult to "Republicans" as well as Democrats, and is worthy only of the demagogues and conspirators who for eight years have blind-folded and cheated their followers.

Resolved, That we most respectfully remind our political adversaries that the platform upon which Gen. Grant was elected to the Presidency, contains the assurance that *in the "loyal states"* the people thereof should have exclusive control over the question of suffrage, and that if the legislatures already elected, take away that control from the people of the "loyal states," by ratifying the proposed amendment to the Constitution, known as Article XV, they will show that the Grant platform was a "delusion and a snare," a deliberate fraud upon those who supported Gen. Grant at the ballot-box.

Resolved, That what was foretold by the Democrats, but hooted at as false by the "Republicans," to wit that the political equality of whites and blacks is to be established by trickery and deception, is about to come to pass, and we, therefore, call upon honest and sincere men in the "Republican" party to vindicate their honesty and sincerity by repudiating the men who have deceived them.

Resolved, That the corruptions at Washington by which hundreds of thousands of acres of the public lands are voted away, as subsidies to gigantic corporations, and by which millions of the public funds are pocketed by borers in the lobby, as in the case of the Alaska purchase, and the extravagance and reckless waste of the people's money by the legislature at Harrisburg, in the payment of useless hangers-on, "an army of pasters and folders," proves that the party in power has become rotten to the core and should be discarded by the people.

Resolved, That Jacob Reed, Esq., be and he is hereby elected a delegate to represent the people of Bedford county in the next Democratic State Convention.

Resolved, That whilst we declare our opposition to every effort looking to the forestalling of the action of the State Convention, and whilst we desire and intend that the delegate who represents this county in that Convention, shall be left perfectly free to exercise his own judgment as to what nomination may be most certainly calculated to ensure the success of the Democratic party, we express our preference for Gen. Geo. W. Cass, of Allegheny co., as the candidate for Governor at the next election.

CONGRESSIONAL.

WASHINGTON, February 2.

In the Senate a number of bills were introduced and referred, one of them relative to telegraphic communication between the United States and foreign countries, another to increase temporarily the pay of the officers of the army. The consular and diplomatic bill was taken up and quite a spirited debate ensued on the amendment to reduce the salaries of certain judges at Capetown, Sierra Leone, and New York, appointed many years ago, under the law to suppress the slave trade. A substitute for the amendment was adopted, requiring the judges to remain at the towns to which they are appointed, and to be paid only for the time they are at their posts.

The House agreed to the Senate's amendments to the bill to vacate certain offices in the States of Virginia, Mississippi and Texas. The bill in relation to the pension laws was further considered and finally recommitted, after which a bill was passed authorizing the construction of a bridge across the East river, between New York and Brooklyn.

WASHINGTON, February 3.

In the Senate, Mr. Whyte presented a memorial of citizens of Baltimore, protesting against any further delay in the operations of the bankrupt law. Several bills were reported from committees to which they had been referred. The consular and diplomatic bill was then taken up, and another lively debate ensued. After the adoption of several amendments, the bill was passed, when the proposed constitutional amendment from the House, to allow colored suffrage, was taken up. Several amendments were proposed, but no vote taken. The committee on printing made a report in relation to the contract for stationery for the Interior Department, together with a resolution directing that all payments under said contract be withheld. The resolution was adopted, and a bill passed to provide the mode of procuring stationery for Congress.

The sergeant-at-arms brought to the bar of the House Messrs. F. Scannell and Henry Johnson, of New York, charged with contempt in refusing to answer certain questions before the select committee appointed to investigate the alleged election frauds in New York. Quite an exciting debate ensued. Mr. Scannell was discharged from arrest for contempt, but held in custody, as was also Mr. Johnson. A bill was reported to authorize the building of a military and postal railroad from Washington to New York. Laid over.

WASHINGTON, February 4.

In the Senate, the proposition from the House for an amendment to the constitution to allow universal suffrage was discussed, after which the patent office appropriation bill was passed.

The House discharged from custody Messrs. Scannell and Johnson, charged with contempt for refusing to answer certain questions in relation to the alleged New York election frauds.—The Indian appropriation bill was taken up, when quite an exciting scene ensued, resulting in Mr. Holbrook, the delegate from Idaho, after being called to order for alleged violent language, receiving a vote of censure. The bill was then passed.

WASHINGTON, February 5.

The constitutional amendment providing for universal suffrage was taken up and Mr. Williams offered a substitute putting the whole subject of suffrage in the States under the control of Congress. He then delivered a long speech in favor of his proposition.—Mr. Sumner made a speech in favor of establishing universal suffrage by an act of Congress, rather than by an amendment to the Constitution which must be submitted to the people before becoming a law. Mr. Vickers made a speech opposing negro suffrage in which he replied to the arguments of Messrs. Williams and Sumner. The Senate then took a recess until 7 o'clock P. M.

Evening Session.—Mr. Vickers concluded his argument on the universal suffrage amendment to the Constitution. Mr. Buckalew made a speech in favor of submitting the amendment to the State Legislatures for concurrence. The Senate then adjourned.

HOUSE.—A number of unimportant bills and resolutions were presented and disposed of. The House went into Committee of the Whole, and Mr. Hooper, of Massachusetts, delivered a long speech on the finances. After some discussion upon the Army Appropriation bill the committee rose and a recess was taken until 7.30 P. M.

Evening Session.—The evening session in the House was devoted to general debate and a number of speeches were made by different members.

GIFT ENTERPRISE SWINDLES.—One would think the public had been sufficiently duped and done for during the past few years to insure them against further investments in gift enterprises. Orphan asylums and other pretended charitable schemes have cheated the people out of not less than $2,000,000 or $3,000,000 since the close of the war. Every one of these projects has proved in the end to be a downright swindle, a shameless brazen fraud. Another of these gift swindles, we hear, is soon to be flaunted before the public. Tempting baits are to be held up to the gaze of the unsuspecting, and a net spread large enough to scoop in millions, more or less. If the people are wise, they will learn from experience that they might just as well throw their dollars away as to invest them in such enterprises. They can invariably set down any scheme which proposes to give them more than the worth of their money as a fraud, and no mistake.—*New York Commercial.*

By a false construction of law, it is said, some revenue gaugers are enabled to clear five or six hundred dollars per month.

The dwelling house of Judge Porter, near McConnellsburg, was totally destroyed by fire on last Saturday evening. Loss $3,500.

A son of Urish Conley, in Juniata tp., while on his way to school a short time ago, slipped and fell on the ice, and received severe injuries in the head, from which death ensued within forty eight hours.

Mrs. Michael Hammer, of Napier tp., while suffering of a fit to which she was subject, fell into the fire and was horribly burned before she could be rescued. She has nearly recovered, but the accident has left some terrible marks upon her person.

THE Rev. R. F. Wilson, of Bedford, will administer the sacrament of the Lord's supper, by appointment of Presbytery, in the Presbyterian church of Schellsburg, on the 3d sabbath (21st. day) of February. Service will begin on Saturday at 10½ A. M.

TO FARMERS.—We would call attention to the advertisement of the California and Oregon Seed Wheat Agency, in another column. Be sure and read it, then call on us, at our office, and we will show you samples of the Wheat advertised.

FIRE.—Our young friend James P. Shoemaker, merchant at Buffalo Mills, this county, narrowly escaped being burned on out Friday last. The roof of his store room caught fire and was considerably damaged before the destructive element could be checked. Fortunately a good supply of water was on hand, a liberal application of which saved the building and contents. It is thought the fire was caused by a defective flue.

SOMETHING NEW.—Mr. Stutzman, Senator from this district, has read in his place and presented to the chair a bill entitled "An Act to incorporate the Citizens' Co-operative Mutual Life Insurance Company of Bedford, Pa." If there be anything in a long name, this enterprise will be a decided success. When we once have a well established life insurance company in this place, Bedford, (like Huntingdon since the election of John Scott) will be "relieved of its insignificance." So mote it be.

DIED—In Juniata township, on the 24 inst., JOHN CORLEY, Jr., aged 57 years, 10 months and 29 days.

On Sunday afternoon, January 31st, the deceased met with an accident, which resulted in his death.

Being weary of sitting in the house, he walked out in the direction of his fields lying along the north side of Dry Ridge. While walking leisurely along the upper side of a hill field, his feet slipped from under him, and not being able to regain himself, he slid with frightful rapidity, about 250 feet, down the hill side, which was covered with ice and snow, striking in his course various obstructions, with such violence, as to bruise and other-wise injure his body. He reached the foot of the hill in an unconscious state. After having partially recovered from the shock, he started for his house, which he, with great difficulty, reached. He took his bed immediately, and a physician was sent for, but his injuries, which were chiefly internal, were beyond the reach of medical aid. He died on the following Tuesday, about noon.

The deceased leaves a widow, four sons and four daughters, to mourn his untimely death. But they mourn not without hope. Mr. Corley was a regular and faithful member of the Church. The interest he always manifested in the church and the regularity with which he attended all the means of grace, betoken a sincerity, which belongs, alone to a true christian. In the presence of a vast assemblage of friends and neighbors, we committed his body to the ground earth to earth, ashes to ashes, dust to dust: looking for the general resurrection in the last day, and the life of the world to come; through Jesus Christ our Lord.

DUTY OF PARENTS.—The community is frequently shocked by the profanity falling from the lips of boys who have scarcely reached the age of accountability. A boy who swears invariably smokes. These two vices seem to be inseparable. Remove the one and you will see the other disappear. The cause of these outcroppings of evil are, in nine cases out of ten, traceable to the carelessness or faithlessness of the parents. They do not appreciate the responsible positions they occupy. They give their children the greatest liberty, allowing them to remain on the streets at unreasonable hours, where these vices are contracted. There should be a law enacted visiting punishment upon those who so far forget their duty to their offspring as to permit them to lay a foundation for a life that will inevitably bring them to disgrace and dishonor.

Aim at perfection in everything, though in most of things it is unattainable; however, they who aim at it, and persevere, will come much nearer to it than those whose laziness and despondency make them give it up as unattainable.

The above is particularly applicable to the subject of health—all should do everything in their power to attain perfection, as near as possible, in that. This can be secured by a regular and continued use of the Zingari Bitters.

EASTMAN & KENDALL,

65 Hanover Street, Boston, Massachusetts, Licensed Wholesale Dealers by the U. S. Established 1864.

The goods sold by us are described in printed slips or checks, which are sent to any address at the rate of ten cents each, in clubs of ten, twenty, thirty, forty, sixty, one hundred, one hundred and fifty, two hundred, &c. For a dollar the receiver can buy the article described in the check, or exchange it for any one of two or three hundred other articles in our circular. As a guarantee of the worth of every article sold by us, any article on our checks can be exchanged for a White Bed Quilt or a Silver Plated Revolving Table Castor, with Five Bottles. Read what the great paper of the Northwest, Toledo Blade (Nasby's paper), says of us:—

"What We Saw at The Hub.—Curiosity led us, while recently in Boston, to visit the dollar establishment of Messrs. Eastman & Kendall. Their trade has become so immense that they now occupy four stories in the elegant block No. 65 Hanover Street. The name of this firm has become as 'familiar as household words' throughout the Middle and Western States, while as prompt and honorable business men they are endorsed by the best firms in their own city. Their Club system of selling goods has done more, we believe, during the past few years to keep down the prices of domestic articles in every day use, than all other influences combined. Most of their goods are manufactured expressly for them, as, for instance, cutlery made to their order in Sheffield, England, and imported in large quantities for their dollar trade alone."

Now is the time to get signers and send in clubs. Ladies specially wanted as agents.

Partial list of articles allowed as commission to any one sending in clubs:—

Club Of Thirty. [$3.] 21 yards of elegant bleached or unbleached cotton cloth. Photograph album, 100 pictures, elegant morocco binding, revolving oval band, silver plated table castor, 5 bottled, ladies' dress pattern, a ladie's richly-ornamented black walnut writing desk, fancy cassimere pants pattern, large white all linen table cover, white lancaster counterpane, 20 yards calico, alhambra red quilt, ladies' morocco shopping bag, good cottage clock.

Club Of Sixty. [$6.] 42 yards bleached or unbleached cotton cloth, fashionable dress pattern, 3 1-2 yards wool cassimere for pants and vest pattern, fashionable woolen shawl. White marseilles counterpane, lady's large genuine morocco shopping bag, lady's fashionable cloak pattern, pair good white woolen blankets, black alpaca dress pattern, 4 yards double width waterproof cloaking, 6 yards farmers' good wool frocking, set misses furs muff and collar.

Club Of One Hundred. [$10.] 66 yards good bleached or unbleached cotton cloth, one yard wide, lady's or gent's new silver hunting case watch, fashionable thibet dress pattern, elegant black alpaca dress pattern, one pair of good white woolen blankets, large size, ladies' fashionable double woolen shawl, two large, fine, bleached linen table covers, with one dozen large sized dinner napkins to match, 25 yards hemp carpeting, 4 1-2 yards fine cassimere for suit, one dozen ivory handled steel bladed knives and forks, one dozen Rogers' best silver plated forks on white metal, portable sewing and embroidering machine, 7 1-2 yards double-width waterproof cloaking, set of furs, muff and collar

It is impossible to give a complete list of goods, but agents desiring articles not named above, will please mention them, and we will accommodate them if possible. If you have a club ready, or intend to raise one for any other house, don't fail to send it to us, and at the same time ask for our New Circular and Mammoth Exchange List. Parties acting as agents for other dollar houses in this ties city, will please send us their address, and that of a dozen or so of their male and female friends, as we can make it for their advantage to do so.—Male and female agents wanted as usual.

SEND MONEY IN REGISTERED LETTERS in every instance, and we guarantee that it will come perfectly safe.

N. B. Our sale should not be classed with dollar jewelry sales and gift enterprises. Send to us for decision respecting our business by the Commissioner of Internal Revenue, dated Washington, Nov. 4, 1868. If you want prompt returns for your money, send your clubs to

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

THE GREAT

AMERICAN COMBINATION
Button Hole Overseaming
AND
SEWING MACHINE.

Its Wonderful Popularity Conclusive Proof of its Great Merit.

The increase in the demand for this valuable machine has been TEN FOLD during the last seven months of its first year before the public.

This *grand and surprising success is unprecedented* in the history of sewing-machines, and we feel fully warranted in claiming that

IT HAS NO EQUAL.

BEING ABSOLUTELY THE BEST
FAMILY MACHINE
IN THE WORLD,
And Intrinsically the Cheapest.

It is really two machines combined in one, (by a simple and beautiful mechanical arrangement,) making both the Shuttle or Lock-stitch, and the Overseaming and Button-hole stitch, with equal facility and perfection. It executes in the *very best manner* every variety of sewing, such as Hemming, Felling, Cording, Tucking, Stitching, Braiding and Quilting, Gathering and sewing on, (done at the same time) and in addition, Overseams, Embroiders on the edge, and makes beautiful Button and Eyelet-holes in all fabrics.

Every Machine is warranted by the Company, or its Agents, to give entire satisfaction.

Circulars, with full particulars and samples of work done on this Machine, can be had on application at the Salesrooms of

OUR NEW
FAMILY
SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

AYER'S

HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of APPETITE, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhoea or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
